

A close-up photograph of a white ultrasound probe and its base. The probe is connected to a cable. The base has a circular logo with a stylized 'R' and several small circular ports. The background is a light, neutral color. On the left side, there is a blue graphic element consisting of overlapping circles and a horizontal line with four colored dots (orange, green, grey, red).

Pump Up Your Volume

Mobile, Interim & Fixed-Site Imaging Solutions
from DMS Health Technologies

Here's Something You Can Get Pumped About

You can offer the new imaging technologies your patients and referring physicians need now without pinching your capital budget.

DMS provides the diagnostic imaging technologies, staff and services your facility needs, when and where you need them. With our mobile, interim and fixed-site imaging solutions, you'll be able to:

Add state-of-the-art-technology and new imaging services through flexible options that meet your unique needs.

Build your patient volume and prove demand projections today without the capital outlay.

Keep your patients at your facility by being a leading provider and offering the imaging technology they demand.

And our technically astute and customer/patient friendly staff always strikes the right chord – 97 percent of our customers and 99 percent of their patients are satisfied with our service.

We're ready to orchestrate a flexible imaging solution for your facility. Contact us today.
